

# Contents

<i>Preface</i>	vii
<i>Abbreviations</i>	ix
1. The Normal Heart	1
2. The Normal Cross-sectional Echocardiographic Study	17
3. Basic Principles of Diagnosis	29
4. Isomeric Arrangement of the Atrial Appendages	48
5. Normal Septal Structures	60
6. Interatrial Communications	67
7. Atrioventricular Septal Defects	76
8. Ventricular Septal Defects	87
9. The Ventricular Outflow Tracts	104
10. Tetralogy of Fallot	120
11. Tetralogy of Fallot with Pulmonary Atresia	130
12. Hypoplastic Right and Left Ventricles	139
13. Double Outlet Right Ventricle	151
14. Common Arterial Trunk	164
15. Complete Transposition	175
16. Congenitally Corrected Transposition	187
17. Hearts with Univentricular Atrioventricular Connections	201
18. Ebstein Malformation	214
19. Aortic Coarctation and Interruption	219
20. The Arterial Duct	228
