

## CONTENTS

Acknowledgements	xi
Foreword	xiii
Preface	xv
<b>SECTION I The Pulmonary Circulation: Basic Mechanisms</b>	<b>1</b>
Chapter 1 Historical introduction	3
Chapter 2 Vascular structure and function	
2.1 Organisation, branching pattern and structure	14
2.2 Mechanics of pulmonary blood vessels	23
2.3 Stress failure in capillaries	31
2.4 Microvascular fluid exchange	37
Chapter 3 Development, growth and injury	
3.1 Vasculogenesis and angiogenesis	44
3.2 Perinatal changes in vascular resistance	53
3.3 Interstitium and extracellular matrix	62
3.4 Pulmonary vascular remodelling	71
Chapter 4 Pulmonary blood flow	
4.1 Pulmonary vascular resistance	86
4.2 Distribution of pulmonary blood flow	98
4.3 Blood flow and pulmonary gas exchange	110
Chapter 5 Endothelium	
5.1 Endothelial-derived vasoactive factors	124

5.2 Adhesion molecules: neutrophil trafficking [with A.M. Peters]	137
5.3 Coagulation	144
5.4 Metabolic and endocrine functions	150
<b>Chapter 6 Smooth muscle</b>	
6.1 Ion channels	159
6.2 Vasoactive mediators: effects on tone and growth	169
6.3 Neural regulation of pulmonary vascular tone	180
<b>Chapter 7 Hypoxia</b>	
7.1 Cellular effects of hypoxia	189
7.2 Acute hypoxic pulmonary vasoconstriction	197
7.3 High Altitude	208
<b>Chapter 8 Genetics of pulmonary vascular disease</b>	
8.1 Introduction	219
8.2 Idiopathic (“primary”) pulmonary hypertension	219
8.3 Hypoxia-induced pulmonary hypertension	220
8.4 Genetics of hereditary haemorrhagic telangiectasia	224
<b>SECTION II Clinical Practice</b>	<b>229</b>
<b>Chapter 9 The bronchial circulation in health and disease</b> [with J.E. Jackson]	<b>231</b>
<b>Chapter 10 Methods of investigation</b>	<b>239</b>
<b>Chapter 11 Pulmonary hypertension</b>	
11.1 Idiopathic (primary) pulmonary hypertension	251
11.2 Paediatric pulmonary hypertension	260
11.3 Thromboembolic disease	271
11.4 Vasculitis, capillaritis and alveolar haemorrhage	285
11.5 Congestive heart failure	293
11.6 Cor pulmonale	302

Chapter 12 Pulmonary oedema	
12.1 Hydrostatic versus permeability oedema	313
12.2 Adult respiratory distress syndrome	324
Chapter 13 Intrapulmonary shunting	
13.1 Pulmonary arteriovenous malformations	329
13.2 Hepatopulmonary syndrome	338
INDEX	345
