

Contents

Preface.....	v
Chapter 1	
History of Open Source.....	1
1.1 Introduction	1
1.2 The Age of Pioneers	4
1.3 The Beginnings of the Open Source Movement.....	6
1.4 Diffusion.....	11
1.5 Institutionalization	13
1.6 Recent Developments.....	18
Chapter 2	
Software and Intellectual Property Rights	23
2.1 What is Software?	24
2.2 Why Do Intellectual Property Rights Exist?	26
2.3 Types of IPR and How They are Applied to Software	28
2.4 Categories of Software	34
2.5 Copyright and Open Source Software Licenses	39
2.6 Open Source Software and Patents.....	45
Chapter 3	
The Organization of the Open Source Community.....	49
3.1 “Who” is the Open Source Community?.....	50
3.2 Demographics.....	56
3.3 The Motivating Factors of Individuals and Organizations	57

3.3.1 Motivations for individuals	58
3.3.2 Motivations for organizations	62
3.3.3 Motivations for society.....	63
3.4 Organization of the Open Source Community	64
Chapter 4	
Software Development Models.....	71
4.1 The Software Development Process.....	72
4.2 Software Development Process Models	73
4.2.1 The Build and Fix Model	73
4.2.2 The Waterfall Model	74
4.2.3 The Iterative Development Model	76
4.2.4 The Evolutionary Model	77
4.2.5 The Prototyping Model	78
4.2.6 The Spiral Model.....	79
4.3 Classification and Comparison of the Models.....	80
4.4 The Microsoft Model: Synch and Stabilize	83
4.5 Comparison between Synch and Stabilize and the Open Source Software Development Process.....	86
Chapter 5	
Open Source Products and Software Quality.....	91
5.1 Open Source Software Projects	91
5.2 Open Source Software Products	95
5.3 Evaluating the Quality of Software	99
5.4 Evaluating Software Quality: the Capability Maturity Model	101
5.5 Evaluating Open Source Products	105
Chapter 6	
Strategies and Business Models.....	111
6.1 Evolution of the ICT Industry	112
6.2 Increasing Returns and the Diffusion of Open Source Products.....	118

6.3 Company Strategy Towards Open Source Software	121
6.4 Can Open Source Software Lead to New Business Models?	125
Chapter 7	
Government Policies Towards Open Source Software	133
7.1 Factors in Favour of Governments Adopting Open Source Software	133
7.2 Limiting Factors for the Adoption of Open Source Software	137
7.3 What Role Should Governments Play in Supporting and/or Adopting Open Source Software?	140
7.4 Government Policies Toward Open Source Software in Various Countries.....	143
7.4.1 European countries.....	144
7.4.2 Asian countries.....	153
7.4.3 American countries	157
Chapter 8	
New Trends in Work Organization.....	163
8.1 Work Organization: The Open Source Community versus Commercial Companies	163
8.2 Changes in Organizational Models.....	167
8.3 Changes in the Way People Work.....	173
8.3.1 Time and place	174
8.3.2 Work autonomy.....	176
8.3.3 Creativity, passion and quality of work.....	178
8.3.4 Work ethic	181
8.4 Towards New Organizational Models.....	182
8.5 Impact on Social Capital.....	186
Chapter 9	
Open Source as a Complex Adaptive System.....	189
9.1 Complexity and Complex Systems.....	189

9.2 What are Complex Adaptive Systems?	192
9.3 The Key Processes in Complex Adaptive Systems	193
9.3.1 Variation.....	194
9.3.2 Interaction.....	195
9.3.3 Selection.....	197
9.4 Open Source as a Complex Adaptive System	199
Chapter 10	
Developments	207
10.1 Extension of the Concept of Openness.....	208
10.1.1 Peer-to-peer production.....	208
10.1.2 Open content.....	209
10.1.3 Knowledge organization.....	211
10.1.4 Knowledge diffusion	211
10.1.5 Peer collection	213
10.1.6 Peer accreditation	215
10.1.7 Peer production.....	217
10.2 Copyleft Applied to Non-Software Products.....	219
10.2.1 Creative Commons	221
10.2.2 Public Library of Science (PloS)	224
10.2.3 Other projects	225
10.3 Conclusions and Open Questions	227
References.....	231
