

Contents

Introduction	1
Chapter 1 The Nature of Probability	5
1.1. Probability and Everyday Speech	5
1.2. Spinning a Coin	6
1.3. Throwing or Spinning Other Objects	8
Problems 1	10
Chapter 2 Combining Probabilities	13
2.1. Either-or Probability	13
2.2. Both-and Probability	15
2.3. Genetically Inherited Disease — Just Gene Dependent	16
2.4. Genetically Dependent Disease — Gender Dependent	19
2.5. A Dice Game — American Craps	21
Problems 2	23
Chapter 3 A Day at the Races	25
3.1. Kinds of Probability	25
3.2. Betting on a Horse	27
3.3. The Best Conditions for a Punter	31
Problem 3	33
Chapter 4 Making Choices and Selections	35
4.1. Children Leaving a Room	35

4.2.	Picking a Team	37
4.3.	Choosing an Email Username	40
4.4.	The UK National Lottery	41
	Problems 4	44
Chapter 5 Non-Intuitive Examples of Probability		45
5.1.	The Birthday Problem	45
5.2.	Crown and Anchor	49
5.3.	To Switch or Not to Switch — That is the Question	52
	Problems 5	54
Chapter 6 Probability and Health		55
6.1.	Finding the Best Treatment	55
6.2.	Testing Drugs	58
	Problems 6	64
Chapter 7 Combining Probabilities; The Craps Game Revealed		67
7.1.	A Simple Probability Machine	67
7.2.	Pontoon — A Card Game	70
7.3.	The Throwers Chance of Winning at American Craps	72
	Problems 7	75
Chapter 8 The UK National Lottery, Loaded Dice, and Crooked Wheels		77
8.1.	The Need to Test for Fairness	77
8.2.	Testing Random Numbers	79
8.3.	The UK National Lottery	82
8.4.	American Craps with Loaded Dice	84
8.5.	Testing for a Loaded Die	89
8.6.	The Roulette Wheel	91
	Problems 8	93

Chapter 9	Block Diagrams	95
9.1.	Variation in Almost Everything	95
9.2.	A Shoe Manufacturer	96
9.3.	Histogram Shapes	99
9.4.	Lofty and Shorty	101
	Problem 9	104
Chapter 10	The Normal (or Gaussian) Distribution	105
10.1.	Probability Distributions	105
10.2.	The Normal Distribution	108
10.3.	The Variance and Standard Deviation	110
10.4.	Properties of Normal Distributions	111
10.5.	A Little Necessary Mathematics	114
	10.5.1. Some Special Numbers	114
	10.5.2. Powers of Numbers	115
10.6.	The Form of the Normal Distribution	117
10.7.	Random and Systematic Errors	117
10.8.	Some Examples of the Normal Distribution	119
	10.8.1. Electric Light Bulbs	119
	10.8.2. People on Trolleys and Under-Used Resources	120
	Problems 10	123
Chapter 11	Statistics — The Collection and Analysis of Numerical Data	125
11.1.	Too Much Information	125
11.2.	Another Way of Finding the Variance	126
11.3.	From Regional to National Statistics	127
	Problems 11	130
Chapter 12	The Poisson Distribution and Death by Horse Kicks	131
12.1.	Rare Events	131
12.2.	Typing a Manuscript	133

12.3.	The Poisson Distribution as a Formula	135
12.4.	Death by Horse Kicks	137
12.5.	Some Other Examples of the Poisson Distribution	139
12.5.1.	Flying Bomb Attacks on London	139
12.5.2.	Clustering of a Disease	141
12.5.3.	Some Further Examples	142
Problems 12	143
Chapter 13 Predicting Voting Patterns		145
13.1.	Election Polls	145
13.2.	Polling Statistics	146
13.3.	Combining Polling Samples	149
13.4.	Polling with More than Two Parties	151
13.5.	Factors Affecting Polls and Voting	153
Problems 13	154
Chapter 14 Taking Samples — How Many Fish in the Pond?		155
14.1.	Why do we Sample?	155
14.2.	Finding out from Samples	156
14.3.	An Illustrative Example	158
14.4.	General Comments on Sampling	160
14.5.	Quality Control	160
14.6.	How Many Fish in the Pond?	162
Problems 14	164
Chapter 15 Differences — Rats and IQs		165
15.1.	The Significance of Differences	165
15.2.	Significantly Different — So What!	167
Problem 15	170
Chapter 16 Crime is Increasing and Decreasing		171
16.1.	Crime and the Reporting of Crime	171
16.2.	The Trend for Overall Crime in England and Wales	172
16.3.	Vehicle Crime, Burglary, and Violent Crime	174

16.4. Homicide	177
16.5. Crime and Politicians	179
Problem 16	181
Chapter 17 My Uncle Joe Smoked 60 a Day	183
17.1. Genetics and Disease	183
17.2. The Incidence of Smoking in the United Kingdom . .	185
17.3. The Smoking Lottery	187
Problem 17	189
Chapter 18 Chance, Luck, and Making Decisions	191
18.1. The Winds of Chance	191
18.2. Choices	194
18.3. I Want a Lucky General	195
18.4. To Fight or Not to Fight — That is the Question	197
18.5. The Mathematics of War	200
Problem 18	204
Solutions to Problems	205
Index	221
