<i>Contributors</i>	ix
<i>Foreword</i>	xiii
1. Ethical Issues in Living Donor Transplantation	1
<i>Vassilios Papalois and Evangelos Mazaris</i>	
Introduction	1
Ethical Issues	2
Conclusion	27
References	28
2. Live Kidney Transplantation	39
<i>Nicos Kessarlis, Vassilios Papalois,</i> <i>Ruben Canelo and Nadey Hakim</i>	
Introduction	39
The Donor	40
The Recipient	57
Conclusions	57
References	58
3. Live-Donor Liver Transplantation in Adults	65
<i>Sheung Tat Fan and Chi Leung Liu</i>	
History	65
Donor Evaluation	67
Recipient Evaluation	72
Donor Left Hepatectomy	72
Recipient Hepatectomy and Left-Liver Graft Implantation	76

Donor Right Hepatectomy	78
Recipient Hepatectomy and Right-Liver Graft Implantation	81
Postoperative Care of the Donor	83
Postoperative Management of the Recipient	84
Donor Complications and Outcome	85
Recipient Outcome	86
Impact of LDLT	87
References	88
4. Living Donor Pancreas Transplantation	95
<i>David Sutherland, John Najarian and Rainer Gruessner</i>	
Introduction	95
Living-Donor Islet Transplants	97
Living-Donor Segmental Pancreas Transplants	100
Perspectives	104
References	107
5. Living Donor Small Bowel Transplantation	119
World Experience and Register	
<i>Enrico Benedetti, Giuliano Testa, Fabrizio Panaro and Nicola Morelli</i>	
Introduction	119
Indications	121
Contraindications	123
Donor Evaluation	123
Recipient Evaluation	125
Surgical Procedures	126
Post-Transplant Care	130
Postoperative Complications and Management	133
Graft versus Host Disease (GVHD)	136
Report from the United Network of Organ Sharing (UNOS) and the Intestinal Transplant Registry (ITR)	137
Conclusions	138
Acknowledgments	139
References	139

6. Living Donor Lobar Lung Transplantation	143
<i>Hiroshi Date and Nobuyoshi Shimizu</i>	
Introduction	143
Evaluation and Selection in the Donor	144
Evaluation and Selection in the Recipient	145
Size Matching	145
Surgical Technique in the Donor	146
Surgical Technique in the Recipient	149
Complications in the Donor	151
Complications in the Recipient	152
Protocols of Immunosuppression	153
Detection and Management of Acute Rejection	153
Results After Living-Donor Lobar Lung Transplantation	156
Conclusion	159
References	160
7. Allogeneic Haematopoietic Stem Cell Transplantation	163
<i>Eduardo Olavarria</i>	
Introduction	163
The Role of HLA in HSCT	166
Sources and Procurement of Allogeneic Haematopoietic Stem Cells	169
Principles of Conditioning Regimens	171
Early Complications After HSCT	175
Graft versus Host Disease	178
Immune Reconstitution After HSCT	183
Infections After HSCT	185
Indications and Results	190
Final Considerations	198
References	199
Index	209
