Introduction	1
1. The Pathological Processes	3
1.1. Atherosclerotic	3
1.2. Cancer	5
1.3. Infection	6
1.4. Autoimmune and Inflammatory	7
1.5. Metabolic and Endocrine	8
1.6. Congenital	8
1.7. Traumatic	9
1.8. Drug-induced	9
2. The System Failures	11
2.1. Heart Failure	13
2.2. Lung or Respiratory Failure	19
2.3. Intestinal or Gut Failure	23
2.4. Liver Failure	27
2.5. Renal Failure	31
2.6. Endocrine Dysfunctions	35
2.7. Neurology	47
2.8. Rheumatological Failure	75
2.9. Haematological Failure	79

2.10. Immunodeficiency	83
2.11. Major Sepsis	87
2.12. Major Haemorrhage	91
2.13. Cancer	94
2.14. Some Words About Blood Gases	96
3. Some Typical Patient Pictures	99
3.1. The Arteriopath	101
3.2. The Alcoholic	105
3.3. The Medical Problems of the Psychotic	110
3.4. The Intravenous Drug User (IVDU)	112
3.5. The Very Sick Patient	114
3.6. The Elderly Patient	116
3.7. The Very Obese	119
4. Four Lists of Ten	123
4.1. The Ten Most Important Emergencies	124
4.2. The Ten Most Common Presenting Complaints	126
4.3. The Ten Most Useful Tests	128
4.4. The Ten Most Useful Drugs	130
Abbreviations	133
Glossary	137
