<i>Acknowledgements</i>	<i>vii</i>
<i>Introductory Quotation</i>	<i>ix</i>
<i>Preface</i>	<i>xi</i>
<i>About the Author</i>	<i>xvii</i>
<b>Part 1 Innovation in the Process Industries</b>	<b>1</b>
Chapter 1 Introduction	3
Chapter 2 The Process Industries	13
Chapter 3 Innovation in the Process Industries	31
<b>Part 2 Strategic Process Innovation</b>	<b>57</b>
Chapter 4 Process Innovation in the Process Industries	59
Chapter 5 Multiple Progression Quality Function Deployment — from the Voice of the Customer to Process Capabilities and Raw Material Specifications	87
Chapter 6 Technology Roadmaps and a Strategic Research Agenda for Process Innovation	103

<b>Part 3</b>	<b>Lean Process Innovation</b>	<b>129</b>
Chapter 7	Designing a Structural Organization for Process Innovation	131
Chapter 8	A Conceptual Model for the Development of Process Technology in the Process Industries	157
Chapter 9	The Development of a Process Innovation Work Process — An LKAB Case Study	177
<b>Part 4</b>	<b>Open Process Innovation</b>	<b>203</b>
Chapter 10	Process Innovation with Equipment Manufacturers — a Conceptual Framework for Collaboration	205
Chapter 11	Process Innovation with the Customers — the Case Study of Application Development at HÖGANÄS	223
Chapter 12	Technology Transfer and Startup of New Process Technology	237
<b>Part 5</b>	<b>Process Innovation Performance</b>	<b>267</b>
Chapter 13	Modelling R&D and Innovation Performance	269
Chapter 14	Success Factors for Process Innovation	281
Chapter 15	Key Performance Indicators for Process Innovation	305
Chapter 16	A Corporate Follow-up System for Strategic Intent and Innovation Performance	321
Appendix A		339
Appendix B		341
Appendix C		343
